SIERRA MADRE, LOS ANGELES COUNTY, CALIFORNIA

FRIDAY, AUGUST 3, 1928

## Legion Post To Sponsor Program

Father Ronan, Post Chaplain, Procures Talent from Hollywood

Promises to Be One of Most Enjoyable Programs of Season

Tonight's concert at the city park under the auspices of the American Legion Post of Sierra Madre, will offer a decidedly different array of entertainment features than any concert yet presented in the park series.

Father Ronan, chaplain of the Post and chairman of the committee arranging the entertainment, has made splendid use of his wide acquaintance and among the entertainers who will appear are Miss Billy Hughes and Company, featuring Norma West of KFI, the Fiddler Family, Russian entertainers, Paddy Walsh and Partner, juvenile tap dancers.

Father Ronan has several other numbers in prospect, but is unable to make definite announcements. The Fiddler Family is among the leading lights in the Russian colony in Hollywood and their resources in talent are practically inexhaustible. When they learned that the program tonight was to be offered under the auspices of the Legion they willingly agreed to cooperate in every possible manner. Father Ronan knows of their work and endorses his friends most highly.

Miss Billy Hughes and her company will need no introduction to radio fans. Miss West is one of the most popular artists appearing over KFI while other members of the group have won a large following.

Paddy Walsh and his partner have won laurels on the professional stage and at most of the fashionable clubs in Hollywood. The committee will make a special endeavor to cooperate with "Paddy" in providing a floor suitable for his "act," and this should prove a most enjoyable number.

A quartet and a famous Hollywood "master of ceremonies" may appear, announcement being withheld because of a possible conflict in engagements that may be found difficult to overcome.

Father Ronan has worked indefatigably in arranging the program, and his Legion comrades are co-operating loyally in completing the arrangements.

The attendance at the Sciot Band concert, the preceding event of the local season, was estimated at 1500, and the band received a splendid reception.

The local entertainment committee is desirous of passing out the suggestion that people in the audience show the visiting artists, at all concerts, the courtesy of silence during the rendition of numbers. As is usual, everywhere, the past concerts have been marred somewhat by conversation "ad lib." in all parts of the audience. It is felt this is more a matter of thoughtlessness than an intent to be discourteous to the artists, and the suggestion will probably be sufficient to abate this unpleasant feature.

The Volunteer Firemen, under whose auspices the next program will be presented are busily preparing a "show" that will reflect much credit upon this organization which helped so materially in making the 4th of July night festivities a wonderful success. It is needless to state that they will present a fine entertainment.

A Starr grand piano, secured through the courtesy of E. P. Melvin, Pasadena agent for that famous instrument, will add greatly to the beauty of the stage setting for this evening. The piano is furnished without cost to the Post and Mr. Melvin's courtesy will be greatly appreciated. This puts Sierra Madre under double obligation to Mr. Melvin, who is director of the Sciot Band which gave such a splendid concert here two weeks ago.

Manager C. F. Farmer, of the Pasadena Elks Band, stated to the members of the Sierra Madre Quartet Tuesday night that the band will be glad to play a return engagement, so to speak, at any time the committee desires.

Other programs are being prepared and the present season will undoubtedly set a high precedent in quality entertainment in the suburban districts.

## BRULE TROUT AND GUIDES OLD FRIENDS OF THE POEHLERS

If you want to see the kind of trout President Coolidge is angling for along the Brule River in Wisconsin, Walter Poehler can show you some authentic kodak pictures. The President's guide, Henry Denny, is also shown, although the pictures were taken nearly twenty years ago.

When the newspapers began to tell about the setting for the Coolidge vacation camp vivid memories caused Mr. Poehler to dig up pictures of an outing which he and Mrs. Poehler enjoyed, in company with Mrs. Poehler's brother, who had just returned from the famous round-the-world naval cruise.

Henry Denny and his father were even then veteran guides along the Brule. The pictures show an abundance of good sized trout. And when Mr. Poehler caught one weighing five and a half pounds he did not know he was setting a mark for a future president to shoot at.

## Bond Issue Will be Sold As Required

City Council Takes the First Step Toward Providing Water Funds

An ordinance ordering the issuance of the \$130,000 authorized at the recent bond election was introduced at the special meeting of the city council held Tuesday evening. This ordinance, which was held over for passage at a later meeting, does not offer the bonds for sale. That will be done after the council members have had time to determine just what items of the water department program will be undertaken first. The bonds will be sold in sufficient lots to provide funds as needed to carry on the work.

Opponents of the park stage plans presented a supplementary petition, adding 97 names to those already on file.

Six standard fire hydrants were ordered installed to replace a like number of 2-inch hydrants. One new fire hydrant was also ordered.

This is part of the program to replace all of the small hydrants as fast as money becomes available, to reduce the fire hazard.

The meeting was very brief, the council adjourning at an unusually early hour.

## Sierra Heights Hotel is Opened On Lima Street

Sierra Madre is at last supplied with an American plan hotel. Geo. Wladislaw, who recently acquired the original Sierra Madre Hotel property at 225 North Lima Street, is opening it up under the name of Sierra Heights Hotel.

With eighteen guest rooms, large dining-room capacity, sun rooms, parlors, etc., the Sierra Heights Hotel is equipped to house and feed a large number of people. Mr. Wladislaw has completely refurnished the building and put it into good shape for guests.

Rooms may be obtained with or without meals, but there are no housekeeping apartments. Meals will be served to transient trade, and rates will be made for regular boarders. Special attention will be given to parties when advance reservations are made.

Mr. Wladislaw has had many years of experience in hotel and apartment house business and is determined to make his new venture attractive enough so that guests will want to return and to recommend it to their friends.

## Huge Tent for Flower Exhibits

The largest tent ever erected in Pasadena will be used to house the Pasadena Fall Flower Show, staged by the Pasadena Horticultural Society. The tent measures 100 by 300 feet. Previously the show has been held in a tent just half as big.

The dates of the exhibition are October 26, 27 and 28, and chrysanthemums, dahlias, gladioli and roses will predominate. With more space it will be possible to enlarge all exhibits, especially the amateur division. The show will be held on the auditorium site.

## Boulevard to Pass Under R.R. Tracks

Extension of Foothill Into Pasadena to Be Pushed This Season

State Appropriation to Aid Grade Separation Is Available

Continuation of Foothill Boulevard directly into Pasadena, with a subway entrance under the tracks of the Santa Fe railroad is the latest highway project to receive an impetus. This extension has been added to the program of widening and improvement which has been fostered for some time by the United Foothill Boulevard Improvement Association.

The Pasadena city directors now have under advisement the matter of passing jurisdiction for this project to the county of Los Angeles. Such action was requested by vote of a largely attended meeting held in the Orange Inn Monday night. On Tuesday a delegation from the association appeared before the Pasadena directors who heard the petition and agreed to take the matter up at their meeting next Tuesday.

On last Friday afternoon the boulevard committee of the chamber of commerce reaffirmed the chamber's endorsement of the Foothill boulevard improvement, taken in November of last year, and also appointed a sub-committee composed of Howard C. Vose, chairman; Dr. Ward and M. Grant to work with committees from the Walnut Street Improvement and the United Foothill Improvement Association.

Mr. Vose states that the Foothill Boulevard connection with Walnut Street is highly desirable, that Pasadena needs all of the arteries of travel that it is possible to obtain and that the cost of the extension will be small compared to the benefits to be derived.

"The only portion of the extension of the street that will be in city territory," stated Mr. Vose, "is that part which will go under the Santa Fe railway track between North Allen and Parkwood avenues. The remainder of the extension will be in county territory. The cost of establishing the grade to take the street under the track will be borne by the state, the county and the Santa Fe Company and all that Pasadena will be called on to pay for will be for the acquisition of land and that cost will be slight as it would be spread over the district."

According to Mr. Vose the state has allocated \$200,000 for the proposed improvement, specifying that the improvement be made by June, 1929. No time can be lost in bringing about the improvement, declares Mr. Vose, although he states that interests which are opposed to the improvement are active and seeking to prevent the extension of Foothill Boulevard.

"The chamber of commerce," said Mr. Vose, "has endorsed the Foothill Boulevard proposal and the county engineering department has the survey half completed. When the matter came before the board of city directors some time ago, the city board agreed to give jurisdiction to the county for the extension of the street in Pasadena territory whenever the supervisors are ready to act."

Mr. Vose declares that the time has arrived for action to be taken if the state appropriation is to be obtained. In addition to the allocation of funds from the state he adds that the county is also expected to aid the project. The special committee of the Pasadena chamber of commerce is to work with E. E. Betts, Albert E. Lombard and J. O. McCament of the East Walnut Street Association and William E. Hoffeditz of the United Foothill Boulevard organization.

## Pastor Ogg Booked For Three Radio Talks in August

Pastor William Duncan Ogg of Bethany Temple continues to be in demand as a radio speaker. This week he was scheduled for three dates on the air during August, over KTBI, the Los Angeles Bible Institute station. He will be heard on Friday, August 10, at 2 p. m., Friday, August 24 at 2 p. m., and Friday, August 31, at 4 p. m.

## APPRECIATED THE ENTERTAINMENT IN SIERRA MADRE PARK

"I just can't stand this town. I'm so blue I don't know what to do with myself. I was never so lonesome in my life. I never saw such a dismal place; no place to go and nothing to do."

Such was the tale of woe poured into the sympathetic ear of Charlie Davis over at the meat market recently. The speaker was a woman who had brought her three children to Sierra Madre and was seeking rest and health. She had made few acquaintances and was in the depths of despondence.

Next morning the same woman came into the store with a cheery smile and evident good spirits. Mr. Davis asked: "Well, how are you this morning?"

"Oh, I'm just fine and dandy," was the reply. "Do you know, I went down to the park last night where they had that band concert. Took the children down and we sat there and listened to the music and it was just great. Everything was so friendly-like, and we had such a good time! It just made the world over for us and I've been feeling different ever since."

This is no fairy tale. It is a true story of what the park concerts did for one family out of the thousands who have been enjoying them. Isn't it worth while for Sierra Madre to provide better stage facilities for entertainments which will accomplish such things?

## Kiwanis to Long Beach On Tuesday

Club Members Will Divide Forces for Next Luncheon

Tuesday's Kiwanis luncheon was strictly a home-town affair. Discussion of club affairs and the final canto of Ray Grant's Seattle convention report occupied the program period after the members had done full justice to the fried rabbit menu prepared by the club women.

Not often does a convention delegate bring home so complete a resume of convention doings as that related by Mr. Grant. It was quite evident that if there were any conferences or convention sessions going on, he was there to get the meat of them. He also presented vivid pictures of some of the outstanding features, such as the nomination of officers and the invitations for the next international convention, which was voted to Milwaukee.

Next Tuesday's meeting will be held according to schedule, although no special program will be provided. Most of the members plan to attend the Long Beach exposition that day, accepting the invitation to meet with the Long Beach Kiwanis Club. President Webster announced that all members would be expected to keep their attendance record intact at one place or another.

## Pasadena Aero Club is Formed To Aid Aviation

Further aid in securing the use of the Hastings Ranch site for an airport is promised in the organization of the Aero Club of Pasadena. The club is composed of a number of young men interested in aviation. Educational and field committees have been appointed by the club.

Officers of the new aero club are: L. L. Keene, president; Paul Bell, vice president; Fred Hutton, secretary; Victor H. Knapp, treasurer; Wilfred Rogers, sergeant at arms; Evan King, Delbert Thornton, directors.

Because he signed the driving license of a minor grandson, G. T. McLain of Los Angeles is liable for damages to the extent of \$31,119 as a result of an automobile accident in which the youth's car crashed into another machine.

The forest rangers continue to arrest careless smokers in the Angeles National Forest. The offenders seem to prefer taking the easiest way out and most of them plead guilty and accept the lowest possible fine.

## Dinner Will Precede Red Cross Drive

Special Effort to Be Made to Secure One Thousand Memberships

Red Cross Now Maintains Complete Outfit for Aid on Fire Line

Plans for the annual Red Cross roll call in Sierra Madre were discussed at the meeting of directors of the local chapter on Monday afternoon. Chairman W. R. Humphries has been designated as director of the roll call, which will begin on Armistice Day and wind up on Thanksgiving Day.

To stimulate interest in the Red Cross work in Sierra Madre the directors are considering a combination dinner and entertainment to be held a day or two before the opening date. Throughout the state an effort will be made to greatly increase the enrollment. Sierra Madre's quota last year was 750 members. Because this is much larger than usual for cities the size of Sierra Madre, the local chapter was not asked to assume a larger quota. However, the chapter directors are setting the goal at 1000 members.

Mrs. J. Milton Steinberger's report as chairman of the production committee showed all work called for completed and shipped to San Francisco headquarters.

The Red Cross now maintains at the city hall a complete outfit for relief work among fire fighters. This includes stretcher and first-aid equipment.

## Sierra Madre Wins Game from Presbyterians

The Sierra Madre ball team smothered the Presbyterian team in the regular game of the Monrovia Twilight League, last night, at Monrovia. The score was 11-1. Pratt and Brain did effective battery work for the local team, with Pratt on the mound.

The first league game to be played in Sierra Madre is scheduled for the local school grounds Monday evening at 5:30. According to Manager C. B. Scott, a regular league game will be played in Sierra Madre each week during the remainder of the season. Monday's game will be between Sierra Madre and DeMolay.

The locals were second in the league standings at the end of the first half of the season, being topped only by the Baker Drugs, considered one of the fastest aggregations in Southern California.

## Sierra Madre Elks Attend Big Meet Monrovia Lodge

Several Sierra Madre Elks attended the regular meeting of the Elks at Monrovia Monday night. A class of forty was initiated into the mysteries of the order, and following the meeting a program of vaudeville acts arranged by Cliff Farmer of Pasadena, was presented. Among the "acts" was the Sierra Madre Quartet, James Heasley, Joe Eastwood, David and Jack Buchan.

The Monrovia Elks are building a splendid new club home on Colorado Avenue and expect to be in their new quarters by the first of December.

## Sierra Madre Man Again Elected as Director of Club

Clyde H. Young of El Monte is the new president of the Foothill Breakfast Club, succeeding the first president, Fred T. Beaty. The first annual election was held at the regular breakfast meeting of the club yesterday morning. Allen T. Bixby, Pasadena banker and past department commander of the American Legion was elected first vice president; Judge John Sturgeon of Monrovia, second vice president; A. N. Multer, Arcadia, treasurer; Howard C. Vose, Pasadena, secretary.

Club officers are making great preparations for the "ladies day" fashion show to be held next Thursday morning.

M. Penn Phillips of Sierra Madre, one of the thirteen men who organized the club, is again named on the board of directors.

## GARDENER KEPT BUSY BY WANTADS RUN IN THE NEWS

"You need not run that ad of mine any more," said Ernest Law as he came into the News office to pay for a wantad that had been running about three weeks.

"I've got all the work I can do and there is no use advertising for more gardens to take care of right now," he said. Never a week goes by without someone telling about surprising results being secured thru News Wantads.

Many News readers declare they read the wantads just as regularly as they do any other part of the paper and find them just as interesting. The want column is full of news. Reader-interest is a test of the advertising value of any medium. Therefore, the wantad column of a home-town weekly paper ought to be just about the highest value to be found for advertising purposes.

## Baby Visits Grandparents Via Airplane

Two-weeks-Old Boy Makes an Early Start as Air Passenger

Young Mr. Norman Nicolet of Bakersfield came down to visit his grandparents, Mr. and Mrs. O. L. Bergen of Victoria Lane, and possibly to establish a record as the youngest airplane passenger. For the young man is only two weeks old. He was brought to Sierra Madre on Sunday by his mother, Mrs. A. E. Nicolet, who wanted to bring him just as soon as possible and in the quickest way to see his grandparents.

The trip was made in one of the regular Ford passenger planes of the Maddux airlines. They landed at the Maddux airport after a trip much easier and more comfortable than a train or automobile trip. Officials of the airline declared the baby was certainly the youngest passenger any of them had ever seen.

## Smith-Metcalf Combination Wins Tennis Tourney

Bradley R. Metcalf and Emil Smith came through the finals of the men's doubles tennis tournament Sunday afternoon with the same sure stride that carried them through the preliminary matches. Preston Schwartz and Leslie Miller were defeated by Smith and Metcalf Saturday afternoon, 6-2; 6-0. On Sunday morning the Reitherman Brothers eliminated Harold Roberts and Harry Draman, 6-3; 6-2.

In the finals Sunday afternoon Smith and Metcalf defeated the Reitherman Brothers 6-4, 6-2, 6-0.

The matches were followed with interest by a number of people and it is believed will pave the way for a revival of interest in match play among local enthusiasts.

Manhattan Beach was the scene of a merry picnic of Sierra Madre folk on Tuesday. The party went down to spend the day, with a sea trip under the guidance of Mr. and Mrs. House of Sierra Madre. On their return they brought the children of the Plaza Community Home back to Sierra Madre. The children had been enjoying a wonderful outing at the beach place of the Christian Mission and Industrial Association. Those in the picnic party were Mr. and Mrs. E. D. Burbank, Mr. and Mrs. R. S. Corlett, W. J. Lawless, Mrs. Lillian Wheeler, Mr. E. D. Harrington, Mrs. E. E. Bacon, Mrs. Fred Staff, Dick Meyer, W. B. Temple and Rev. A. O. Pritchard.

## First Water Camp Is In New Hands

A. R. Longhurst and A. D. Choate have taken over First Water Camp from P. J. Benson who has owned and operated it for several months past. The new managers are both young men who have spent some time in packing and camp work in the Big Santa Anita. They have many friends among trail travelers who will wish them well in their new venture.

## City Claims Flow of Big Santa Anita

Hearing Is Held Before State Bureau of Water Rights

Conserving Supplies by Sinking Water Into Gravel Is Proposed

Applications of Sierra Madre, Arcadia and the Oakmont Syndicate for surplus waters of the Big Santa Anita Canyon were heard on Wednesday before the state division of water rights in Los Angeles. The hearing was conducted by Harold Conklin, chief of the division.

Sierra Madre was represented by James H. Howard as special counsel, and by City Engineer O. A. Gierlich. Arcadia was represented by Attorney Walter Haas, the Oakmont Syndicate by Engineers Donald M. Baker and Wm. Hoffeditz, and Monrovia by City Attorney W. Fleet Palmer.

The projects covered by the applications are all as follows:

Under Applications 3498 and 3997, the Pacific Southwest Trust and Savings Bank, acting as trustee for Oakmont Syndicate (formerly Cook and Woodley) proposes the appropriation of 8 second feet and 3000 acre feet of water for the agricultural and domestic benefit of 1790 acres in the cities of Arcadia, Monrovia and Sierra Madre. Underground storage effected by spreading is proposed.

Under Application 4039 the City of Arcadia seeks to appropriate 2 second feet and 2500 acre feet for municipal purposes, underground storage also being proposed.

Under Application 4058 the City of Sierra Madre asks for a permit to appropriate 4 second feet and 2000 acre feet to be stored underground and used for municipal purposes.

Under application 5368, H. C. Ness and H. L. Crouch propose the use of 650 gallons per day from the source for domestic purposes on land leased from the government in Angeles National Forest.

The division of water rights has heretofore held hearings acting upon certain applications to appropriate from the San Gabriel River proper and is holding hearings on Santa Anita Canyon and San Dimas Canyon applications as the next step in clarifying the general situation in the San Gabriel watershed which has been the subject of a detailed investigation covering a period of over five years.

Each community tried by expert testimony and the presentation of authorities to prove a prior right to the waters in question. There was a friendly spirit and an evident attitude of consideration of the rights of the various communities, although Sierra Madre representatives protested strongly against applications which would permit transporting water from the Santa Anita basin to other territory which can obtain water from other sources.

Compromise agreement between the cities and private interests concerned was strongly urged by Mr. Conklin. He adjourned the hearing until September 15 to give an opportunity for them to get together. Some of the individual applications call for more than the total runoff of the canyon and it will be obviously impossible to grant all of them. Mr. Conklin intimated that all the petitions might be denied unless the petitioners can reach an agreement among themselves. Then the water flowing down the Big Santa Anita would settle the question as it has in the past by sinking into the gravel or flowing off to the ocean as governed by prevailing conditions.

All of the petitioners expressed the purpose of conserving the surplus flow by sinking it into the gravel and thus raising the water level of the Santa Anita basin. Inasmuch as the three applicants pump from the same basin it is believed a basis of operation can be agreed on.

Mrs. Robert-Malott Fletcher and son, John Fletcher, and Mrs. Edward H. Knight of Indianapolis, Indiana, are visiting this week at the home of Miss Leah Fletcher on West Highland Avenue. They are spending the month of August in Southern California.

## 1932 Games Turns Tho'ts Westward

Increasing interest in the world Olympic Games to be held in California in 1932 is noted with the staging of the track and field contests in Amsterdam. Thousands of athletes and sportsmen from every nation are now gathered in the Netherlands, as well as other thousands of visitors and tourists, many of them art lovers and scholars attracted by exhibitions in sculpture, architecture and the other arts, which in addition to the athletic contests, are a part of the Olympic program.

Interest in California's great 1932 event is state-wide as the competitions and exhibitions of that year will not be confined to one city, and the visitors it will attract will tour the entire state. According to the directors, the benefits that California will receive from the 1932 Olympiad will exceed many times, both in actual money and in future advantages, the cost of holding the games. Toward this cost the state legislature at its last session, voted authorization of \$1,000,000 as the state's share.

### Southern Service Company Picnic Draws Hundreds

Orange County Park last Sunday was the mecca for some 2500 Southern Service Co. employees, the occasion being the first annual picnic at which officials of the company, the managers of the 26 laundries and dry cleaning plants operated by the company, and the salesmen and other workers met together for a day of sports, games, dancing and mutual good fellowship.

According to J. F. Clewett, manager of the Monrovia Laundry, the program went off without a hitch. Some of the members were so anxious to be on the grounds early that they arrived the night before, while others rolled in during the early morning hours.

The next step in the production of small cars is said to be one which can be used as a cigarette lighter as well.—Punch.

Shakespeare never repeated, which was one of the chief reasons he never qualified as a politician.—Chicago Post.

Mr. Hoover is now running for office for the first time, and picked a nice office to run for.—Detroit News.

Why did the republicans nominate Hoover? The answer is that, seeing he managed the bread line in Belgium well, they thought he would be a good distributor of political pie.—Raleigh News and Observer.

NOTICE OF COMMISSIONER'S SALE OF REAL ESTATE ON FORECLOSURE OF MORTGAGE.

In the Superior Court of the State of California, in and for the County of Los Angeles.

GEORGE W. VAN AUKEN and REBECCA VAN AUKEN, his wife, Plaintiffs.

RICHARD D. JOHNSON and BERTHA E. JOHNSON, husband and wife, et al. Defendants.

Under and by virtue of an order of sale and decree of foreclosure and sale issued out of the Superior Court of the State of California, in and for the County of Los Angeles, on the 30th day of July, 1928, in the above entitled action, wherein the above named plaintiff obtained judgment and decree of foreclosure and sale against RICHARD D. JOHNSON and BERTHA E. JOHNSON, husband and wife, and PACIFIC SOUTHERN LOAN AND MORTGAGE CORPORATION, a corporation, and A. E. COOK, Defendants, on the 24th day of July, 1928, for the sum of Fifty-six Hundred Eighty and 31/100 Dollars gold coin of the United States, which said judgment and decree was on the 27th day of July, 1928, entered and recorded in Judgment Book 669 at page 105 et seq. (to which judgment and decree reference is hereby made), I am commanded to sell at public auction all the following described premises, situate, lying and being in County of Los Angeles, State of California, and bounded and described as follows, to-wit:

Lot nine (9) in Tract 8651, in the County of Los Angeles, State of California, as per map recorded in Book 117, page 51 of Maps in the office of the County Recorder of said County.

PUBLIC NOTICE IS HEREBY GIVEN that on Wednesday, the 29th day of August, 1928, at 12 o'clock noon of that day in front of the Court House door of the County of Los Angeles, Broadway entrance, I will, in obedience to said order of sale and decree of foreclosure and sale, sell the above described property, or so much thereof as may be necessary to satisfy said judgment with interest and costs and expenses of sale, to the highest and best bidder for cash, gold coin of the United States.

Dated July 30, 1928.

R. E. ALLEN, Commissioner appointed by said Superior Court.

## Pioneers on Screen With Holt as Star

Week-end film fans will have a Zane Gray story with Jack Holt as the star to entertain them tonight and tomorrow. "The Vanishing Pioneer" is the title of this western feature, and "A Great Event" is an added attraction billed by Manager Meyer.

Warfare of a new kind engages Clara Bow and Richard Arlen in "Ladies of the Mob," their first picture together since this pair was featured in Paramount's great epic of the air, "Wings." In "Ladies of the Mob," which will show at the Wistaria Theatre Sunday and Monday, Arlen and Miss Bow are cast as a gunman and his wife.

Richard Barthelmess does some real boxing in First National's great war story, "The Patent Leather Kid," coming Tuesday and Wednesday. Barthelmess plays a boxer in the picture and trained for weeks under the direction of professional ring men, for the role.

An all star cast in Virginia Browne Faire, Eric Mayne, Theo. Lorch and Bill Franey are in support of Ken Maynard in his latest Western feature, "The Canyon of Adventure" which will be shown Thursday only. The story is an original by Marion Jackson and was directed by Albert Rogell.

The Army-Navy athletic break is now called irreparable, but we refuse to give up hope. When Kellogg gets war all nicely outlawed, he will no doubt take this up.—The New Yorker.

What the republicans really want is an issue that won't cause any voter to lose his temper.—San Diego Union.

Strange how a whole nation changed from strong drink to ginger ale almost overnight. — Publishers Syndicate.

It is all clear now, about Hoover's ability to attract the elephant: He eats three bags of peanuts a day.—Detroit News.

## How to Take Care of Rugs and Carpets:

DO NOT sweep Axminster, Wilton or D. Velvet Rugs with a corn broom, while new.

To avoid damage, a good carpet sweeper or vacuum cleaner should be used. Sweep with the pile, not against it.

Rugs should not be beaten.

The loose wool which sweeps off from a new rug has no effect whatsoever on the wearing qualities.

Do not pull out any knots or tufts that might be partly pulled out. Clip off with scissors close to the surface.

### United in Marriage at Church of the Ascension—

Miss Jessie Maebelle Palmer, niece of Mrs. Wm. Lees of this city, was married to Mr. Omar Wilburn of Whittier at the Church of the Ascension yesterday afternoon at vesper hour of 5 o'clock. The pastor, Rev. Henry B. Moore, officiated. Before the ceremony, Mrs. H. Randolph Wood sang "O Perfect Love," and Mr. Victor Rees "Beating Home," and "I Love You Truly." Mr. Alan Rains played violin obligatos to the various selections and during the bridal processions of Lohengrin and Mendelssohn. Both Mr. Rains and Mr. Rees are college friends of the bride.

The chancel was banked with white roses and greenery amid which gleamed many cathedral candles. The bride came down the aisle on the arm of her father, W. N. Palmer, groomed in georgette and lace with veil of tulle and real lace, and bouquet of orchids, lilies of the valley and bride's roses. The matron of honor, Mrs. William Rothwell, sorority sister of the bride, was dressed in pink shaded to rose with picture hat of pink and bouquet of orchids, sweet peas and pink roses. Rose petals were scattered before the bride by her own little sister, Mary Palmer, dressed in orchid. The two-year-old niece of the groom, Wilma Wilburn, was ring-bearer, dressed in white georgette and lace.

The mother of the bride wore a blue georgette gown with a tope lace picture hat and arm bouquet. The best man was Mr. William Rothwell, husband of the matron of honor. The ushers were in charge of Mr. Lawrence Tilton of Long Beach. Immediately after the ceremony a receiving line was formed back of the church, the bride's mother and two sisters, Eleanor and Norma, and aunt, Mrs. William Lees, assisting.

An informal reception for the immediate friends and relatives was also held in the parish hall, beautifully decorated with flowers and greenery. During the reception Mr. Rees and Mr. Rains rendered several appropriate musical selections, accompanied by the Rev. H. B. Moore.

The bridal outfit was a three-piece green wool sport suit with gray hat and accessories, including a gray fox fur, the gift of the groom. The groom was dressed in a gray suit. The couple left in their Buick roadster amid a shower of rice for a month's trip to Santa Barbara, Lake Tahoe and points north.

On the eve of the wedding, Mrs. William Lees gave a dinner at her home on East Central Avenue for her niece, the bride. The bridal party and immediate family were present. Bridal decorations of white were carried out in the place cards, flowers and candles. The menu was fruit cocktail, baked quab, potatoes au gratin, fresh lima beans, hot rolls, vegetable salad, cherry cream pie, coffee after-dinner mints, cigars and cigarettes. After the dinner the bridal party went to the church and rehearsed the wedding ceremony.

### Mother's Club to Meet Today—

The Mothers' Club will meet at 3 o'clock Friday afternoon, August 10, in the women's parlor of the Congregational Church. Mrs. Nestor A. Young will give the fourth of her series of talks on the training of young children. The club members feel themselves particularly fortunate in having Mrs. Young available for these talks. In addition to her own experience as the mother of two children, she has given special study to the subject and was for several years one of the lecturers in the course on child care and training at the University of Ohio. This course is especially worth while for the mothers of children under 12 years. All such are cor-

dially invited to the meeting by Mrs. Arthur T. Evans, president of the club.

James Clarke, son of Mr. and Mrs. G. A. Clarke, returned home on Tuesday after a month's visit at the old home in Dickinson, N. D. He made the trip both ways alone, leaving Sierra Madre just after being graduated from St. Rita's school.

Mr. and Mrs. Arthur T. Evans and family returned home Sunday from Lake Arrowhead where they enjoyed a week's outing.

Rudolph Hartman took his family to Newport Beach last Friday. He spent a few days with them there and then returned to his post in the drug store while the family remained for a longer outing.

Mr. and Mrs. Donald C. Ashmore returned to their home, 477 North Baldwin, Sunday evening after spending a month on Hillcrest Drive, Los Angeles.

Mrs. Mary Pritchard and Mrs. Florence Clarke of 57 West Mira Monte Avenue left on Wednesday for a month's visit in Kansas City. S. R. G. Twycross reports the sale of a lot on West Montecito Avenue Roland A. Adams of Sierra Madre to Wright Curtis of Los Angeles. The new owner plans to build at once.

Miss Lulu Moore has returned to her post as librarian at the public library. She visited with relatives in Colorado and enjoyed seeing the sights in and about Denver and in Estes Park, Colo. During her absence Mrs. H. A. N. Addis presided over the library.

George Norris and daughter Catherine hiked up to Fern Lodge on Tuesday to spend a few days. The young lady refused to ride up the trail and delighted her dad by taking his pace and making the trip as easily as he did.

Mrs. C. E. Cook and Miss Gertrude Cook, who are spending a month at Long Beach, enjoying the ocean breezes, spent the week-end at their home on West Central, returning Tuesday to the beach.

The full dinner-pail was a popular slogan in McKinley's campaign. A better one to-day might be "A full gas tank."—Christian Science Monitor.

## News Notes from Here and There

Work is to be started at once on a community plunge at Fontana. The project is the start of a well-equipped city park, and is receiving enthusiastic support from citizens of that community.

Negroes residing in Brawley have brought suit against a barber of that community seeking damages as a result of being refused service in Brawley barber shops.

"Bats in the attic" proved a problem for the janitor of the South Santa Anita grammar school in Arcadia until he tried a cyanide spray. Hundreds of bats fell victims to the deadly deadly acid.

Gaily decorated, dotted with colorful costumes of the Spanish dons, and breathing a spirit of early California romance, Santa Barbara enjoyed this week its fifth annual Old Spanish Days Fiesta. The opening feature was a Spanish barbeque. Spanish folk dances, songs and special events filled the three-day program.

Resolutions asking for the replacement of trees along the Valley Boulevard that have been taken out because of highway paving and widening, have been presented to the county board of supervisors by the El Monte chamber of commerce. The resolution included in its scope all the highways in the county where trees have been removed.

Buron Fitts, lieutenant governor of California, stated in a recent address that suppression of crime is the greatest problem now confronting the nation. "In one year," he said the state of California spent \$72,000,000 on judges, detectives and police forces, jails, sheriffs and other agencies. During a like period the state spent just \$69,000,000 on schools."

The Edison Company of Southern California during the next five years will spend on new construction a total of \$130,000,000, of which 75 per cent will be for distribution facilities to take care of new installations. During the last five years more than \$100,000,000 have been spent in increasing the generating production capacity. A total pay roll of \$68,000,000 is shown for the last five years in a recent report by the company. The capacity of the company's generating plants will

soon total 1,048,100 horsepower, of which 572,700 will be hydro and 475,400 steam generation. The six months' earnings statement of the company showing an increase in gross earnings of 14 per cent over a similar period last year demonstrates, according to company officials, the effectiveness of the company's present active business-development program.

On the morning of August 9 the Foothill Breakfast Club will celebrate "ladies' morning" with a gala program featuring a fashion revue under the direction of Miss Peggy Hamilton, fashion critic. Each city represented in the club will sponsor the appearance of a young lady in the revue, which will be staged as a contest and a prize will be awarded to the winner. Miss Hamilton and a group of movie celebrities will be the judges.

NOTICE OF COMMISSIONER'S SALE OF REAL ESTATE ON FORECLOSURE OF STREET LIEN. NO. 197242. A. E. VAUGHAN, Plaintiff, vs. FELIPE MELGOZA, Defendant.

Under and by virtue of an order of sale and decree of foreclosure and sale, issued out of the Superior Court of the State of California, in and for the County of Los Angeles, on the 26th day of July, 1928, in the above entitled action, wherein the above named plaintiff obtained judgment and decree of foreclosure and sale against FELIPE MELGOZA, Defendant, on the 23rd day of July, 1928, for the sum of One Hundred Five and 05/100 Dollars gold coin of the United States, which said judgment and decree was on the 25th day of July, 1928, entered and recorded in Judgment Book 669 at page 98 et seq. (to which judgment and decree reference is hereby made), I am commanded to sell at public auction all the following described premises, situate, lying and being in County of Los Angeles, State of California, and bounded and described as follows, to-wit:

Northerly 73 feet of Lot 161, Lincoln Avenue and Fair Oaks Tract, (in Lots 24, 25, 26, 27, Block A, S. P. Tract), as per Map Recorded in Book 17, Pages 81 and 82, Miscellaneous Records of Los Angeles County.

PUBLIC NOTICE IS HEREBY GIVEN that on Wednesday, the 29th day of August, 1928, at 12 o'clock noon of that day, in front of the Court House door of the County of Los Angeles, Broadway entrance, I will, in obedience to said order of sale and decree of foreclosure and sale, sell the above described property, or so much thereof as may be necessary to satisfy said judgment with interest and costs and expenses of sale, to the highest and best bidder for cash, gold coin of the United States.

Dated July 26, 1928. R. E. ALLEN, Commissioner appointed by said Superior Court. JOHN R. SAHANOW, 1018 South Grand View Street, Attorney for Plaintiff. 44-47

#### WHAT'S THE MATTER?

WHEN the News asked last week  
"What's the matter with our city gov-  
ernment?" the question started a lot of  
other people asking questions.

Who are they after? Are they trying  
to get somebody's job? Are they gunning  
for the city council? Are they trying to  
put something over? What is it all about?

These are just a few of the questions  
raised by friends of the administration and  
others not so friendly.

At any rate that questioning editorial  
gained attention. That was the primary  
purpose in what may develop into an inter-  
esting discussion.

At the outset, let's get some things  
straight and fixed in mind. The News is  
not out to "get" any city official nor any  
combination of officials. The News is not  
attempting to put over any particular pro-  
gram of change in personnel or form of  
government.

The present city administration would be  
a rare exception if not subject to criticism.  
No predecessor has been free from criti-  
cism. Therefore, any criticism expressed or  
implied in this editorial discussion is abso-  
lutely impersonal and not directed against  
any particular individual. It involves noth-  
ing but the most friendly feeling toward  
present officials as individuals.

With the atmosphere somewhat clarified  
by the foregoing, why not get together for  
a frank and friendly consideration of ways  
and means of bettering city government in  
Sierra Madre. Surely this is a purpose in  
which all can unite with the utmost good  
will.

In the opinion of the News, most of the  
shortcomings of Sierra Madre city gov-  
ernment should not be blamed upon individuals.  
The causes are basic. These officials are  
the working parts of a governmental ma-  
chine. Like any other machine, to secure  
best results without waste of effort or ex-  
pense, there must be proper co-ordination  
of parts, and the machine must be adapted  
to its job. Every individual part may be  
perfect, but if the other conditions are not  
met the machine will not deliver the proper  
results.

Frankly, the city government is not an  
efficient machine. Rather intimate ac-  
quaintance with city officials from the city's  
beginning makes the statement safe. Few  
city officials have regarded the machine as  
satisfactory. Many of them gave up in dis-  
gust and resigned after trying in vain to  
get results to satisfy the standards of ordi-  
nary business.

There will be no satisfactory city gov-  
ernment until certain fundamentals are met.  
As suggested last week, there are two es-  
sentials in any organization: Authority and  
accountability. First, the authority must  
be definitely placed and not widely scatter-  
ed; then we will have accountability.

Have we authority in our city gov-  
ernment? Yes, lots of it. But it is so wide-  
ly scattered that accountability is subdivid-  
ed till it just doesn't count. Lack of ac-  
countability naturally results in waste and  
inefficiency. When things go wrong what  
happens? Is anybody held to account? Or  
is it another inning of the grand old game  
of passing the buck? You know it. Nothing  
else but!

More later.

#### SOUL OF A SMALL CITY

(El Monte Herald)

ONE of the loveable things about a small  
town is its faculty of appreciation.  
When a merchant remodels his store front  
or redecorates his store window, there are  
always those acquaintances and friends who  
do not hesitate to congratulate him upon his  
enterprise.

When Mr. and Mrs. Jones have a small  
son, it seems that everyone in town is a  
personal friend, and the congratulations  
leave a warm spot in the region of the  
heart.

When Bill goes to college, or Agnes grad-  
uates from finishing school, the feeling of  
friendship is stirred by the well wishes of  
the neighbors.

This sense of appreciation brings out the  
best there is in every one of us. It leads  
on to higher and higher accomplishments.  
It provides the human touch that makes life  
worth while. It is the soul of the small  
community, lacking to a great extent in the  
large city.

#### EASY MONEY

(Temple Times)

WHEN will the political managers give  
the average citizen credit for knowing  
anything? Evidently they still consider the  
most of us boobs, for the national chairmen  
of both parties have announced that there  
will be no limit on the amount of money  
any person may contribute to the campaign  
funds of their respective parties. There  
never was a limit and there never will be.  
Testimony in the oil scandal shows how  
easy it was for Chairman Will Hays to par-  
cel out the Sinclair graft money and have  
it come into the party treasury in modest  
little subscriptions of a few thousand each.  
The little matter of perjury in the official  
reports of receipts and expenditures did not  
seem to worry anybody.

#### HOW DAMNABLE IS PROHIBITION

(Upland News)

JUST how "damnable an affliction" is pro-  
hibition? We raise the point because  
John J. Raskob, who has just been chosen  
by Gov. Al Smith as the democratic chair-  
man for the coming campaign, says that he  
has taken this important task because: "I  
see an opportunity of performing some con-  
structive service by helping relieve the  
country of the damnable affliction of prohi-  
bition. Governor Smith has taken a coura-  
geous stand on that important question,  
and I accepted the chance to help him."

What Mr. Raskob says about prohibition  
being so terrible is quite significant in view  
of the fact that he is not only the hand-  
picked leader for Al Smith, but also one of  
the big heads of the General Motors Cor-  
poration, one of the world's largest producers  
of automobiles.

We can't follow Mr. Raskob in his think-  
ing about prohibition and its effect on, say,  
the automobile business. Every time we get  
tangled in a traffic jam and see cars to the  
right and cars to the left, and cars behind  
and before, we say to ourselves (if we are  
thinking about matters wet and dry):  
"Here is the reason the United States will  
never reject prohibition." Drunken drivers  
on the road now are criminal—there are no  
two ways about that. But if any person  
above the age of 40 years whose memory is  
at all active thinks that a free flow of liquor  
is going to make fewer drunken drivers,  
then, in our opinion, that person hasn't as  
vivid a memory of the old-time saloons as  
has this writer.

If our business depended on selling au-  
tomobiles to the great American public we  
would be just as bone-dry as Mr. Henry  
Ford—just for the sake of our pocketbook.  
We really can't figure out from a business  
standpoint where prohibition is a "dam-  
nable affliction." Perhaps Mr. Raskob may  
enlighten us more on this point as the cam-  
paign progresses.

Voters in the Big Santa Anita Canyon  
have for a long time been under the neces-  
sity of going clear over to Duarte to cast  
their ballots. Just why this should be so is  
not clear. It certainly does not indicate a  
clear knowledge of the local geography on  
the part of the authorities defining the vot-  
ing precincts. Until the population is suffi-  
cient to justify a voting place in the can-  
yon, why not let them vote in Sierra Madre?

### Reservations

By J. R. E.

There is an insistent demand on  
the part of several friends of  
"Reservations" that something be  
done at once regarding the city  
schools. One prominent business  
man said yesterday to the writer:  
"I have read your comments in  
regard to school matters with  
great interest. I think you are  
absolutely right. Sierra Madre  
needs a junior high school even  
if it has but two rooms. I con-  
sider the school situation more im-  
portant than water bonds, swim-  
ming pool bonds or any other  
bonds that could be proposed at  
this time; the need for a better  
school system is vital."

"Reservations" was promised a  
detailed report of the school situa-  
tion many weeks ago. Being a  
comparative newcomer and unac-  
quainted with the rather unusual  
condition in which a thriving city  
sends most of its school children  
to a neighboring school system,  
J.R.E. admits that he stands on  
insecure footing. There may be a  
good reason for it, an uncontro-  
vertible reason. J.R.E. can't see  
it as yet, however, and until a  
good and sufficient reason is forth-  
coming, this column will be large-  
ly devoted to an attempt to create  
interest to the point where an or-  
ganization can be formed, the  
facts analyzed, and the need  
proved or disproved.

No one denies that a new school  
building is needed. The present  
structure was built many years  
ago and has long been obsolete.  
It is not only a hazard so far as  
safety and health is concerned but  
it is not large enough for im-  
mediate needs.

A ray of hope to parents of  
seventh and eighth graders is held  
out in a statement by another  
citizen who has recently made a  
cursory study of the school law,  
to the effect that in his opinion  
in order to make the allocation of  
students to another school district  
legal, it must be done by vote of  
the people. This is not an at-  
tempt to assert a definite legal  
opinion, but is the ground-work  
for more intensive research in the  
near future by interested parties.

A group of parents and citi-  
zens had planned to hold a meet-  
ing next Tuesday evening to con-  
sider school matters, but it was  
thought advisable to postpone it  
to a future date, pending the se-  
curing of definite data.

In the meantime, "Reservations"  
will welcome communications af-  
fecting school matters, and would  
especially welcome a statement  
by local school authorities.

Can it be possible that the  
Americans are failing in so many  
Olympic events because they trained  
on the wrong brand of cig-  
arets?

Perhaps the "pills" are only for  
tonsils, adenoids and appendixes,  
after all.

Sierra Madre residents who ap-  
preciate courtesies from outsiders  
will welcome an opportunity to  
reciprocate by doing their shop-  
ping for music and musical instru-  
ments at the store of E. P. Mel-  
vin in Pasadena. Mr. Melvin is a  
former resident of Sierra Madre  
and is personally interested in our  
social and civic affairs.

All the folks who don't want a  
stage in the park are requested to  
arise and give their orange boxes  
to the folks who think the sum-  
mer concert series is a fine thing  
for the community.

### From the Old News Files

#### TWENTY YEARS AGO

City Assessor J. A. Madden re-  
ported the total assessed valua-  
tion of property in the city of  
Sierra Madre to be \$950,000. This  
showed an increase of nearly 50  
per cent over the previous year's  
total of \$650,000.

Mr. and Mrs. C. F. Gray pur-  
chased a new house on Auburn  
Avenue just completed by E. N.  
Mead.

The Lincoln-Roosevelt Republi-  
can League was making a great  
effort to "smash the S. P. Ma-  
chine" at the August primaries.

Rev. M. W. Barth began the  
construction of a residence at the  
northwest corner of Baldwin and  
Alegria Avenues, planning also to  
erect a Catholic chapel on the ad-  
joining lot.

#### TEN YEARS AGO

Montville Flowers delivered an  
address in Sierra Madre in fur-  
therance of his campaign for the  
republican nomination for con-  
gress.

The council adopted an anti-  
sedition ordinance modeled after  
the Berkeley ordinance and pro-  
viding severe penalties for the ut-  
terance of seditious language.

Lieut. Chas. W. Schwartz com-  
pleted his course at a Texas avia-  
tion field and was assigned as in-  
structor to the army camp at  
Sacramento.

Word was received of the ar-  
rival in France of Jacob P.  
Schweich of the 315th Engineers.

### Society and Personal

The Ladies of the Church of the  
Ascension announce another of  
their bi-monthly summer card  
parties at the Parish House on  
Wednesday evening, August 8th,  
at 8 o'clock. These parties have  
become very popular at this time  
of year when most organizations  
are inactive and those folk who  
have not started on their vaca-  
tions or have returned, enjoy get-  
ting together for a social game.  
Interesting prizes and refresh-  
ments will follow the playing.

Mrs. John Borradaile and her  
sister, Mrs. A. Otero, went to  
Santa Barbara on Wednesday to  
spend a few days during the an-  
nual Spanish fiesta.

Mrs. Frank E. Cox and daugh-  
ter, Miss Dorothea, drove to San  
Diego on Monday, expecting to  
remain a week at the home of C.  
W. L'Ecluse.

Dr. and Mrs. William Harvey  
King of Scarsdale, N. Y., have  
been guests at the home of Rev.  
A. O. Pritchard during the week.  
The Kings were formerly parish-  
ioners of Mr. Pritchard in Scars-  
dale. Dr. King is a well known  
specialist with offices in New York  
City.

Bob Cox visited a few hours  
this week with his father, F. E.  
Cox, while the Pacific fleet was  
in port for a brief stop at San  
Pedro. The fleet had just return-  
ed from Nicaragua, a country  
which did not appeal to Bob at  
all, and left for Puget Sound.

Mr. and Mrs. J. E. Carpenter  
and four children will leave Sun-  
day for Seattle. They will take  
two cars with camping equipment  
and enjoy a leisurely trip up and  
down the coast while Mr. Carpen-  
ter is on his vacation from street  
and water department duties.

Dr. Frank P. Miller and family  
have been moving this week to  
the home they purchased recently  
on Mariposa Avenue, Altadena.

Rev. and Mrs. A. O. Pritchard  
are leaving for Pomona to spend  
the week end with friends. They  
expect to return home early in  
the week and start next week on  
another vacation trip.

## Interesting News Notes from Sierra Madre Canyon

Judging from the hearty response received from the circulation of the petitions for the canyon swimming pool, out-of-town property owners, as well as residents, have demonstrated in no uncertain terms their desire for the re-establishment of the pool. The committee has met with practically no opposition thus far and only a few more signatures are needed to make the petition complete. It is to be hoped that the work of proceeding with the necessary formalities for equipping the pool will not be delayed, but will go forward as rapidly and efficiently as the petitions from the Canyon Improvement Association have been handled. Canyon folks are still hoping that the end of the summer season will find the project well under way.

Eddy Millburn and P. G. Napolitano, designers from Los Angeles, were guests in Seldom inn cottage Saturday and Sunday.

Mrs. Ernest Green returned to her home on Friday from a month's vacation trip. After meeting her brother, Edwin Price, in El Paso, they motored thru Texas, Arkansas, Kentucky, Tennessee, Ohio, Michigan and as far north as St. Thomas, Ontario, where they visited for a week with their mother Mrs. E. P. Price. Mrs. Green made the return trip by train.

Mrs. C. L. Hoover entertained sixteen guests at luncheon Thursday. Tables were spread under the oak trees in the spacious gardens of the Hoover home on Churchill Road. The afternoon was spent in playing bridge. Mrs. R. S. Corlett was high score, Mrs. P. Kortkamp won second prize and Mrs. James C. Heasley was awarded consolation.

Mrs. Sally M. Boaz spent Friday until Sunday in Long Beach, the guest of her brother, T. W. Forbes, from Manteca. Mr. Forbes is president of the chamber of commerce in Manteca and made the trip down especially for the opening of the Pacific Southwest Exposition.

Little Miss Norine Fix, daughter of Mr. and Mrs. M. J. Fix of Torrance, celebrated her sixth birthday anniversary at Rocky Ridge Cottage Thursday. A beautifully decorated cake bearing six candles was sent by her grandmother from Torrance for the occasion. Miss Norine was the happy recipient of many useful gifts.

Mrs. Frances H. Burton and Mrs. John C. Burton entertained four tables at bridge on Friday afternoon at Linger Long cottage on Woodland Drive. After the games delicious refreshments were served by the hostesses. The guests were Mes. A. L. Phelps, C. W. Weaver, Myrtle Bradford, A. J. Dewey, C. L. Hoover, J. F. Key, D. A. Hawk, G. F. Houseworth, E. Thompson of Eagle Rock, Wm. Turner of Long Beach and the Mes. Ida Jean Key, Frances Scott Key and Katherine F. Burton. Mrs. Dewey won high score and Mrs. Thompson the consolation prize.

On Saturday Miss Florence West and Miss Minerva Boatright attended a luncheon at the home of Mrs. Mark Allen in Los Angeles, given in honor of Miss West. The luncheon was in the nature of a reunion for a group of Missouri friends who are spending the summer in Southern California.

Mr. and Mrs. Ward B. Harrington and their daughter Thelma left the canyon Wednesday after enjoying a two weeks' vacation spent at their cottage on Woodland Drive.

Miss Dorothy Toy of Hollywood is a guest at Cadmus Villa for a week. Miss Toy is a niece of Mr. and Mrs. John P. Morris.

Mr. and Mrs. L. Lynch of Los Angeles have rented Sunshine Inn on Woodland Drive for two weeks. Mr. and Mrs. H. B. Paisley of Santa Ana spent Friday, Saturday and Sunday with Mr. and Mrs. E.

## Communications

July 28, 1928.

The Sierra Madre News,  
Sierra Madre, Cal.

Gentlemen: Being one of the unfortunate motorists who so frequently drive along the streets of Los Angeles, and seeing no other autos in any direction, accidentally slip by one of those numerous stop signs, then suddenly find you are being followed by one of Chief Davis tax collectors in a policeman's uniform who hands you a little tag that directs to the city hall tax office, mislabeled traffic department, I humbly submit the following:

### Safety Rules for Motorists

One: Hire a footman to walk ahead and signal to you that no traffic officer is in sight.

Two: Hire a guard to ride on the rear of your auto and signal to you if he sees an officer on a motorcycle following you.

Three: If you receive the signal that Tax Collector in uniform is following stop your machine at once and remain at a standstill until the officer has passed out of sight, then look for signal from your footman and proceed carefully and cautiously forward.

Four: Be sure that your hired help is none of Davis' plain clothes detectives.

A. E. Pulling.

New Toronto, Ont., July 28, 1928

Dear Friends:  
I have left Chicago for a short sojourn in Canada and am visiting New Toronto, Ont. There are a few things I do not like here—I did not like the inspection of my baggage as I passed the border, but travelers get used to that; it is one of the unpleasant things that has to be, as long as some people will smuggle. Over \$1,000,000 worth of liquor is smuggled across the border every year.

so you see they do not catch all the scamps.

I do not like the money. There is no money compared to our money in beauty; their pennies are three times as large as ours. Then there is the flag. Of course there is no flag like the red, white and blue, the dear old flag, so eloquent with life and character, enfolding the love and loyalty of the great United States.

But there are many things I do like and thoroughly enjoy. There is Lake Ontario, peaceful and inviting, and the people accept the invitation, by fishing parties and boat racing, and bathing—all along the shore for a mile are all kinds of amusements. They call it Sunnyside; it is the Coney Island of Canada. It is a pleasure to put in an evening there and watch the crowds, the merry-go-rounds huge wheels spinning, going up in the air 400 feet, carrying passengers; also toboggan slides. Also dancing and music. All kinds of booths tempt you with their offerings, from hot dogs to peanuts and candies and sodas. The grounds are lit up brilliantly with electric lights.

I like the drives, the roads are good, the country rolling; there are farms and vineyards and orchards, that are rich and well cared for. Have been enjoying the cherries and peaches very much, and then there are the flowers, beautiful and abundant.

Next to Sierra Madre, I like Toronto. Even in the city the streets are clean and the stores attractive, the homes are attractive, shaded by great trees, with green lawns and flower gardens stretching out to the street. But all this visible beauty is enjoyed five months in the year, then comes the cold winds and descending thermometer, sometimes going down to 30° below. Here is where I feel the thrill of Sierra Madre, where there are no dead things, and cruel winter never

comes, and flowers ever bloom. Canada ought to be a part of the United States, but of course will never be, as one of the local papers says, "Canada will remain British, was born for no other purpose." A Chicago preacher said, "In time Canada will be absorbed by the United States," but the same paper says "The U. S. is not in the absorbing business." And that is true. Canada and Mexico will be left to follow their own lines of independent government. Uncle Sam has got a big enough family to care for, and he is doing it well.

Thank you for putting last letter in paper to say "hello" to my many friends. Wishing you all success in your live and interesting paper, I remain

Yours respectfully,

Rev. Frank G. Moss.  
P. S.—I will be leaving here for Chicago August 23, and will be located as usual at 4448 Drexel Blvd, care D. W. Ferry. Will remain there the rest of my visit in the east.

Conscientious Objector  
"Jimmy says he is never going to marry."

## GREAT NEW BUICKS PRESENTED TODAY

Commemorating its twenty-fifth business year, Buick this week presents its 1929 Silver Anniversary models. Upper left in typical western setting is the new five-passenger coupe; upper right, the special deluxe coupe, while below the four-door sedan pauses on the shore as the giant S. S. Malolo streaks oceanward.

## FALSE SECURITY NIPS SMUGGLERS

### Officials Ignore Border and Center Efforts on Inland Trails.

Austin, Texas.—No effort is made on the part of the United States immigration and customs authorities to guard the crossing points of the Rio Grande as a means of preventing, or at least lessening, the carrying on of a nefarious traffic between the two countries. In fact, aliens and smugglers are permitted to cross at will. The effort to apprehend them is made, and usually successfully accomplished, after they are well on this side of the river and headed, perhaps, toward some interior city. It is declared by government officials on the border that thousands of men would be required to enforce an effective patrol of the American bank of the Rio Grande. It is pointed out that at one time just prior to the World war there were 50,000 United States soldiers forming a cordon from the mouth of the river at El Paso, and despite the vigilance of these troops unlawful crossing of the international boundary stream was freely done.  
It is in the territory back from the river a few miles that the mounted immigrant inspectors, in co-operation with the state rangers and local police officers, operate so successfully that it is estimated that less than 5 per cent of the aliens who smuggle across the river get outside the deadline and on their way to freedom. In the lower Rio Grande border district, which extends from the mouth of the river to Rio Grande City, 125 miles, the border patrol consists of only twenty-five men. Although these men are scattered over a territory larger than the average state, they can be assembled at any point in the district within a few hours.  
When a party of illegal aliens, liquor runners or other kinds of smugglers land on the Texas bank of the Rio Grande they may feel, and probably are temporarily secure from molestation by officials as long as they do not attempt to go into the interior. The roads and trails leading back from the river are constantly guarded by officers who shift around from place to place. The uncertainty of where one or more of these officers may be on any day or even a particular hour of the day adds to the hazards of the smuggler who may be seeking to get through the danger line. Not long ago word came to the immigration chief in charge of the district that forty aliens had been seen in the chaparral back from the river near Rio Grande City. In two hours a force of twelve mounted inspectors was assembled on the trail of the fugitives. They were rounded up and later deported.  
Smuggling liquor from Mexico

## FILM SPEEDS 3 MILES MINUTE

### Camera Slows Down Machinery to One-Two-Hundredth of Speed.

Detroit.—Feeding movie film through a camera at the rate of three miles a minute to slow down rapidly moving machinery to about one two-hundredth of its normal speed is the feat accomplished by C. Francis Jenkins of Washington. At the meeting of the Society of Automotive Engineers here, Mr. Jenkins told of the "chronotone camera," one of his latest inventions, and how it may be applied to the study of automobile engines.  
Instead of the 16 pictures a second, taken by the ordinary movie camera, or the 128 by the "ultra-rapid" camera, now frequently used in filming athletic events, the chronotone takes 3,200 pictures a second at its normal rate. If desired, it can be speeded up even further, and take as many as 10,000 a second. When these are projected in the ordinary machine at the speed of 16 a second, the apparent speed of the motion is correspondingly reduced. When taken at 3,200 per second, the reduction of speed is 200 times, and at the higher speeds it is of course greater.  
Uses New System.  
In the usual type of motion-picture camera, the film is stopped for each exposure, so that it stops and starts 16 times a second. At such high speeds as those employed in the chronotone camera this is impossible, for the film would be torn to pieces.  
A further difficulty is introduced, because with a single lens, extremely short exposures would have to be made. Otherwise the picture would be blurred, just as if the object itself were close to the camera and moving at such a high speed. Mr. Jenkins has avoided this difficulty by providing 48 lenses, set in the periphery of a 13-inch disk, which turns at a speed of 4,000 revolutions per minute. The film moves back of this disk, so that the image formed by the lenses moves right along with the film. In fact, the exposures overlap, as the exposures are begun through one lens before that through the preceding lens is completed. At 3,200 exposures a second each one is about one twenty-fifth hundredth of a second in length. With the rapid lenses used, and sensitive film, this is easily sufficient for a fully timed negative in bright sunlight. In the ordinary movie camera, at 16 a second, each exposure is about one thirty-second of a second in duration.  
Has Photographic Quality.  
Mr. Jenkins called attention to the good photographic quality in

Chinese Hardest to Deal With.  
Of the various nationalities of aliens who flock to the border in a continuous and apparently never ending stream the Chinese are the most difficult to deal with, according to immigration authorities. They possess a cunning and intelligence much above the average of other aliens. They have more patience and are willing to abide their time in order to make sure of success in crossing the border. It is difficult to identify a smuggled Chinese once he gets among his countrymen anywhere in the United States. No better evidence of the magnitude of the unlawful Chinese immigration through Mexico is needed than the fact that in practically all the border towns in Mexico the Chinese population is so large as to be out of all proportion to the business in which they purport to be engaged. This is particularly true of Mexicali, where there are said to be approximately 4,000 Chinese out of a total population of about 7,000. In Nogales, Mexico; Cananea, Juarez, Villa Acuna, Piedras Negras, Nuevo

## Felix' Hands Are Full

## VACATION HEALTH PROGRAM

Vacation time is a growing time for children. Most children usually make their greatest gains in late summer or early autumn. A child needs a well-planned vacation to help him achieve a summer of good health.

First, make needed body repairs early in the season. (Act on reliable medical advice.) Teeth, tonsils, adenoids and other body parts may need attention. Defective body machinery can work harm faster than vacation health opportunities can build up. Besides, putting off repairs gives a troubled mental atmosphere to parents and child.

Vacation days should be as free of idleness as of illness. Children thrive best on routine and happy "busyness." The regular, well-filled days of summer camps and health schools satisfy a child's need for a happiness and health-giving routine. All children cannot be in camps and schools. But many children can help grown-ups plan for vacation days full of healthful activity. "Early to bed," "clean plate," "day-time rest" can be made parts of an interesting health game in homes as well as in camps. More planning is often needed to make the home summer program a success, as the "psychology of the crowd" is apt to be less weighty than in camps or schools.

Wholesome play and a chance to make things that interest the boy and girl must be substituted for the undirected "running loose." Long trips, irregular sleeping and eating hours, over stimulating activities work against a child's successful summer of growing. Well-planned short excursions, joy giving activities and regular healthful living make vacations profitable.

## Evans Makes Campaign on His Record

State Senator Endorsed by Large Meeting in Theatre

Several hundred persons gave a rising endorsement of the candidacy for re-election of State Senator Herbert J. Evans at a meeting held at the Vega theatre on Whittier Boulevard. It was an enthusiastic gathering of representative citizens of that territory, held under the auspices of the 35th district republican committee.

Senator Evans gave a brief but highly interesting address in which he outlined some of the work he accomplished in behalf of his constituents during the last legislative session in Sacramento. He took occasion to sharply criticize the activities of the Los Angeles city machine politicians who he said had attempted to control also the territory outside of the city limits.

**Notice to My Chicken Thief.**  
The car blanket that you stole along with the last consignment of poultry from my chicken coop was an all-wool blanket. If your foresight had not been blinded with poison bootleg liquor you would have taken my ice machine instead, for where you're going a refrigerator plant would be more appropriate than a wool blanket. E. J. Robb.—Albion (Pa.) paper.

The young married couple were having a disagreement while awaiting lunch at a modest Soho eating-house. The woman was grumbling because there were unable to afford the luxurious restaurants which had been a feature of their honeymoon.

"You can't have a brass band everywhere you go," said the man crossly.  
"Oh, yes, I can," snapped the wife. "I've got it with me now — on my finger." — Pearson's Weekly.

**NOTICE OF COMMISSIONER'S SALE OF REAL ESTATE ON FORECLOSURE OF MORTGAGE.**  
NO. 254178  
In the Superior Court of the State of California, in and for the County of Los Angeles.  
JONATHAN LEET YOUNG, Plaintiff.  
FRANCES M. PINNICK, et al., Defendants.

Under and by virtue of an order of sale and decree of foreclosure and sale, issued out of the Superior Court of the State of California, in and for the County of Los Angeles, on the 26th day of July, 1928, in the above entitled action, wherein the above named plaintiff obtained judgment and decree of foreclosure and sale against FRANCES M. PINNICK, Defendant, on the 23rd day of July, 1928, for the sum of Forty-eight Hundred Seventy-three and 13/100 Dollars gold coin of the United States, which said judgment and decree was on the 25th day of July, 1928, entered and recorded in Judgment Book 693 at page 166 et seq. (to which judgment and decree reference is hereby made), I am commanded to sell at public auction all the following described premises, situate, lying and being in County of Los Angeles, State of California, and bounded and described as follows, to-wit:

The West one hundred thirty-two (132) feet of the East two hundred thirty-four (234) feet of Lot one (1) in Block "N" of the Santa Anita Land Company's Tract, as per Map recorded in Book 6, Page 137 of Maps, in the office of the County Recorder of the County of Los Angeles, State of California.

East one hundred two (102) feet of Lot one (1) in Block "N" of the Santa Anita Company's Tract, as per map recorded in Book 6, Page 137 of Maps, in the office of the County Recorder, Los Angeles County, State of California.

**PUBLIC NOTICE IS HEREBY GIVEN** that on Wednesday, the 25th day of August, 1928, at 12 o'clock noon of that day, in front of the Court House door of the County of Los Angeles, Broadway entrance, I will, in obedience to said order of sale and decree of foreclosure and sale, sell the above described property, or so much thereof as may be necessary to satisfy said judgment with interest and costs and expenses of sale, to the highest and best bidder for cash, gold coin of the United States.

Dated July 26, 1928.  
R. E. ALLEN,  
Commissioner appointed by said Superior Court.

All our products can be obtained at The Home Bakery, Anderson Store, Canyon and Mountain Trail Store.

Phone Pasadena, Colo. 2791, or Mrs. Brown at The Home Bakery, for your orders.

Henry Sherman, Prop.

## City Will Ask Annexation, Says Report

Newspaper Story Fails to Disclose Identity of Petitioners

Will you have your annexation a la shoe string, or will you have it baked whole?

That seems to be the question bothering the latest group to take up the question of joining Pasadena and Sierra Madre in the bonds of wedlock—or deadlock. The annexation project has made its appearance from time to time for many years. Each successive rumor of the sale of part or all of the Hastings ranch seemed certain to cause some agitation.

The latest move in that direction is reported from Pasadena in the Times. The investigators have not yet seen fit to make their identity known in Sierra Madre. The Pasadena story is as follows:

Pasadena, August 2. — Plans looking toward the annexation of Sierra Madre by this city, were revealed here today. Prominent Sierra Madre citizens have been in consultation with City Engineer Warren C. Earle for the last month, it was learned, and petitions are now being prepared for signing by those favoring annexation.

It is said that the principal reason Sierra Madre residents look favorably upon that district's inclusion within the Pasadena limits is the fact that the annexation would provide them with the Pasadena sewage facilities at a nominal cost. Earle declared that no pumping plant would have to be built and a four-mile gravity sewer could be installed from Sierra Madre to connect with the Pasadena sewer at Lamanda Park. The cost of this project would be about \$100,000.

An important question in the annexation proceedings would be whether this city would include the large area of intervening territory, or would follow the example of Los Angeles in connecting Pasadena to Sierra Madre by means of a "shoe-string" strip.

By annexing Sierra Madre, this city would add materially to its area, besides increasing its population by more than 6000 persons.

## Mud in Ore Vein At Roberts Camp Shows Real Value

Charles W. Brown of the Winter Creek Mines has found that the ore which has been assayed from the vein discovered by O. L. Roberts is not the only thing carrying real values. Running thru the vein along with the fine tale of light color, was a layer about the color and consistency of graphite paste. Mr. Brown took a sample of this to a Los Angeles assayer who reported the mineral values of the ore vein were also carried in this black "mud."

Mr. Brown has received word from his brother, Joe R. Brown of Oklahoma City, that he will be with him again soon. Mr. Joe Brown came out recently to visit in Southern California and spent some time in the canyon. The two brothers have acquired the interest formerly held by E. W. Milton in the mine and camp property which was purchased from O. L. Roberts.

## Alumni of Union Meet in Pasadena For a Luncheon

Alumni of Union Theological Seminary of New York City enjoyed a luncheon on Monday at the Tree Tea House House in Altadena. Rev. A. O. Pritchard is president of the Southern California alumni group and presided over the meeting which was attended by twenty-five former Union men. The number was increased by reason of the holding of the Presbyterian Synod at Westminster Presbyterian church. Interesting talks were heard from Rev. Stanley Hunter of Berkeley who recently returned from a six weeks trip through Mexico and from Rev. Clarence Neff of Guadalajara, Mexico. Prof. Ballard of Occidental College reported on a recent visit to the old school. The oldest alumnus present was Rev. Mr. Ward of the class of '76, and the youngest guest was a second-year student home for vacation.

## Band Needs Added Instrumentation

Director Auer of the Sierra Madre Band is very anxious to secure a few more members for the band immediately. Trombones, clarinets and altos are needed and any men or young men who have had experience with any of these instruments will be particularly welcome at the next rehearsal Monday night, at 7:45, at the Park House. The band is progressing splendidly under Mr. Auer's direction.

## Wantad Brings Wandering Rip Back to Owner

Rip, the turtle, is the latest witness to the fact that it pays to advertise in the News wantads. Rip hasn't really said anything about it. But he knows that, whereas he was a wanderer on the face of the earth, he is now back in his familiar pen at the F. P. Conard home, along with Zip, his companion of several years.

Rip is a desert turtle about 11 inches across his horny shell. Blake Manning found him wandering up Grove Street last week. And while the Mannings would gladly have kept him for a pet, they thought he had probably escaped from somebody's yard, so they inserted a wantad which was read with eager interest by Mr. Conard. Rip was identified by numerous photographs Mr. Conard had taken of his pets. He has had Rip about three years and Zip for about five years. Rip had escaped from his pen by burrowing into the ground and forcing the strands of the wire netting which had been buried underground to prevent just that thing.

These desert turtles are a curious evolution. In some past age their ancestors appear to have been left high and dry by receding waters. As time passed they learned to adjust themselves to desert diet and desert conditions. Instead of sea food, they learned to live on bugs and sparse vegetation. On the front feet claws were developed on which they walk easily through sand. The rear feet are wide stumps with small, hard projecting claws on the rear. When the desert turtle lifts his body high he can travel at surprising speed.

## Sierra Madre Quartet Sings for Pasadena Elks

The Sierra Madre Quartet, Jim Heasley, Joe Eastwood, David and Jack Buchan, carried a good will message to Pasadena Elks Tuesday night when they appeared on a program arranged for "ladies' night" at the club. Cliff Farmer, former resident of this city, and chairman of the Elks entertainment committee, enlisted the quartet's services following the Elks Band concert here, when the singers appeared at the "feed" following the concert.

The quartet's services were complimentary to the lodge and were greatly appreciated by the antlered "herd."

## Grainger Comes To Bowl For Four Nights

Never before in the history of the Hollywood Bowl, nor in any other organization so far as can be learned, has a musician appeared in the quadruple role of conductor-composer-soloist-bridegroom. Percy Grainger, who comes to the Bowl for four nights, August 7, 9, 10 and 11, will have that unique distinction.

Dividing his activities between the keyboard, the creative pen, and the re-creative baton, too little has been known generally of Percy Grainger, the director. Music critics of three continents have acclaimed Grainger as a musical "leader" and a superb interpreter of not only his own modern compositions, but also of the works of the old masters.

Left, Herbert Fleishacker, San Francisco, director of the 10th Olympiad Association; center, William May Garland, Los Angeles, president of the association, and, right, Frew W. Kiesel, Sacramento, another director.

## News Notes from Here and There

A new "night" coach, built by an auto transportation company, has sleeping quarters for 26. Each compartment is a real stateroom. Individual wash basins with running water and five electric lights are some of the features of each of the tiny compartments.

The California prize fight law will have a place on the November ballot. Foes of the measure have filed enough names to assure the matter being brought to a vote, and it is said a bitter fight will be made to wipe the law permitting "boxing matches" off the statute books.

Submarine oil springs are believed to be the cause of the pollution of beaches from Hyperion

south to Manhattan, according to a report on file from City Engineer John C. Shaw of Los Angeles. The engineer admitted a small amount of sewage might be carried to the beaches by the tides and said the fault would be remedied at once, but declared the pollution was not wholly due to the outfall sewer. Under a new ordinance passed by the board of county supervisors Wednesday, a penalty of \$500 fine or six months in jail, or both, may be inflicted on any person convicted of contaminating any of the county beaches.

The gambling games which have been in operation in beach towns for many years past are now a thing of the past. Venice and Santa Monica have recently ousted the games which have preyed on the public, and their operators from the ocean front, and it appears that the only chance for the owners will be to park out-

side the city limits.

Former residents of Ohio will hold their annual summer picnic Saturday in Bixby Park. Several thousand Buckeyes are expected to attend the affair. All the old-fashioned picnic features will be on hand.

After 47 years of married life, Mrs. Arminda Nungs, mother of 19 children, has filed suit in superior court in Modesto asking for a divorce.

A wistaria plant at the home of Mrs. Johanna Starbird of Norwalk, Ohio, must have read the publicity given the Sierra Madre wistaria vine during the recent fete. At any rate the Ohio vine has grown 25 feet under the house and has come up in a small opening the dining room. At present the vine is higher than the ceiling.

## SIERRA MADRE NEWS

## NOTES ON THE OLYMPIAD

Elizabeth Robinson, 15, who won the 100-metre dash for the United States in the Olympic Games, was not allowed to enter school athletics in Chicago because she was "too skinny." She trained herself in the running events, entered an invitation meet and finally won herself a place on the Olympic team.

Wouldn't it be encouraging for the future of athletics in the United States if at least one of the losing Americans would admit he was beaten by a better man (or men) than trying to alibi his defeat?

But then, we still have with us, Bud Houser, the grandest athlete of them all. Bud is always good, but never so brilliant as when he is behind and finds it necessary to "deliver." He is not only a fine athlete but a splendid inspiration to American youth.

London papers say the American athletes are "ice-creaming" themselves out of victories. Well, a lot of Americans do just that.

An effort should be made to discover what the Finns train on. It might help a lot of our candidates who are eternally running for office.

One sports writer has taken comfort in the fact that Williams, the winner of the 100 and 200-

meter sprints, lives on the Pacific Coast. Los Angeles will probably be claiming him as her very own by tonight. In fact, why the delay?

\$50 reward for the arrest and conviction of party who stole the shirt off of Jesse James at the Wax Show, 323 South Rampart Street.—Louisiana paper.
